Attn: Honorable Brenda K. Sannes

RE: Joseph Morelli, DOB:

Dear Judge Sannes:

This letter is to confirm that Joseph Morelli, who was admitted to the CTRC on 7/30/19, continues to remain engaged in treatment. He participates in monthly supportive psychotherapy and medication management; he presents on time to all scheduled appointments.

Joe is a pleasure to work with; he is engaged and participatory in his sessions. He is compliant with medication management and monitoring. Since the incident in March 2022 that resulted from a manic episode and lead to legal consequences, Joe has remained psychiatrically stable. He has expressed much remorse and has gained insight into his mental health issues and his process.

Joe has been compliant with the terms of house arrest and Probation. We wish to take this opportunity to advocate for Treatment Alternatives to Incarceration.

Best regards,

Noumana
